# 8 Weeks to 2nd Grade Success!

In this packet, you will find 8 weeks of review work for summer. Addition and subtraction is a big part of math in second grade. Memorizing the basic addition and subtraction facts has been shown to better overall performance in second-grade mathematics. A suggested activity is to make flashcards of the addition and subtraction facts and practice with your child. Each week your child will complete one half of each page. This will help your child retain what they learned in first grade to help him/her succeed in second grade.
